How to Dial Most International Calls With "011"

International Dialing service has been expanded. You can now dial your own station calls direct to the countries listed on the following pages.

For station calls to all countries listed, "011" International Dialing procedures are followed. "011" is the simplest and fastest way to call abroad.

DIALING INSTRUCTIONS (Station Calls)

To dial international station calls, dial in sequence:

1. Dial "9"
2. The International Access Code—011
3. The Country Code—a two or three digit number
4. The City Routing Code—a one to five digit number
5. The Local Telephone Number—a two to nine digit number
6. The (1Touch-Tone®) "#" button

For example:

To place a call to Germany (Country Code 49), Frankfurt (City Code 69), telephone number 123456, you would dial:

9 +	**011** +	**49** +	**69** +	**123456** +	**#**
Int'l Access Code	Country Code	City Code	Local Number		Touch-Tone Button

After dialing the entire number, allow at least 45 seconds for the ring to start.

Also, because "0" (operator) is the first digit of the International Access Code (011), please remember to dial the second digit (1) within three seconds, or you will reach the local operator.

[1] Touch-Tone® customers save additional time by using this step.

Operator-Assisted Calls

Dial "9 + 0" if you need the Operator's services. You do this if you are placing a person-to-person, collect, or credit call call. or if you are charging the call to a third number.

DIALING NOTES

Signals (ringing, number busy, etc.) in other countries often differ from those in the United States.

Also, when overseas numbers are shown on letterheads or business cards, they are usually preceded by a national access digit and the routing code. For example, a typical number may appear this way in a letterhead:

(02) 123456

The first digit "0" is a national access digit and is used only when dialing within that foreign country. It should not be used when dialing from the United States. You would dial:

9 + 011 + Country Code + 2 + 123456

RATE INFORMATION

1. There are 3 different rates that apply 7 days a week:

   Standard— 7 a.m.-1 p.m.
   Discount— 1 p.m.-6 p.m.
   Economy— 6 p.m.-7 a.m.

2. The rate period is determined by the time at the originating telephone.

ADDITIONAL ASSISTANCE OR INFORMATION

Dial "9 + 0" (operator) if you need assistance. . . .

- to obtain a telephone number you don't know
- to obtain City Routing Cides not listed in this section
- for help in completing a call
- for credit on a call on which you had difficulty, i.e., reached a wrong number.

Dial 9 + 011 + Country Code + City Code + Local Number + # Button (to speed call)

Calls to certain points outside of the Continental U.S. can be dialed in the same manner as long distance. Simply dial 1-809 and local number. These points are: Antigua, Bahamas, Barbados, Bermuda, British West Indies, Dominican Republic, Jamaica, U.S. Virgin Islands.

Numbers beside countries are Country Codes.
Numbers beside cities are City Codes. For codes of cities not listed dial 9 + 0 (operator).

Tips on TDD Use:

1. Remember that TDD calls take longer than voice calls. Especially when you make a business call or a long distance call, prepare what you plan to say and have any information handy that you may need during the call.
2. When calling via TDD, please be patient. Delays may occur before the initial response is received.
3. "GA" means "go ahead." This is the signal to the other person to begin typing. "HD" means "hold." This is the signal that the person typing must stop for a minute, but he or she will be back. "SK" means "signing off." This is how you say goodbye when the call is over.
4. For information on dialing long distance calls, see the front pages of your local telephone directory.
5. For information on use of TDDs within the Department, call the Office of Civil Rights at (FTS) 377-5691 (V/TDD).
